

New Journals Case Reports in Gastroenterology Case Reports in Oncology

Karger Publishers is pleased to announce two new online journals dedicated exclusively to case reports: Case Reports in Gastroenterology and Case Reports in Oncology.

These peer-reviewed online-only journals are two new forums devoted to publishing case reports. They cover the entire spectrum of their specific fields of medicine, including prevention, diagnosis, treatment, toxicities of therapy, supportive care, quality-of-life and survivorship issues.

The Editors also accept case reports dealing with the use of novel technologies in diagnosis and treatment.

The journals aim to provide clinicians and researchers with a tool to disseminate their personal experiences to a wider public as well as to review interesting cases encountered by colleagues all over the world. Universally used terms can be searched across the entire growing collection of case reports, further facilitating the retrieval of specific information.

All articles can be accessed free of charge.
